

Working Student/ Intern for WeChat Development

Length: 3-6 Months

We are looking for...

... a WeChat developer to help improve our existing WeChat business account by creating an interface and plan for future projects. The developer should have experience with WeChat development, MySQL, and JavaScript. Fluency in English and Chinese preferable.

Who we are:

Sublet4U provides guests with hand-picked apartments in prime locations to make the experience away from home authentic, safe and secure, meeting each traveler's individual needs. We offer hundreds of short- and long-term rental properties ranging from corporate apartments to privately-owned flats in cities around the globe. Our personalized service means that every traveler can feel at home and stay like a local.

What we are offering you:

- Office space in the middle of Manhattan NYC
- Flexible working hours (full- or part-time possible)
- Real work experience, own projects and team work
- Flat hierarchies and a friendly, open minded team
- Help with Visa and Apartment
- Compensation negotiable

Interested? Just send your CV to info@sublet4u.com.

We are looking forward to meeting you!
